## PREFACE.

Aside from the sportsman's guild, almost every important avocation or branch of business has its appropriate directory, each considered indispensable in its particular sphere. The want of a compact, reliable and comprehensive SPORTSMAN'S DIRECTORY is clearly shown by the numerous queries which appear each week in the columns of the sporting press, upon subjects coming within the scope of the work now undertaken by the writer.

To compile and publish a complete work of this kind covering every locality would require the exhaustive methods of the census taker, and when issued such an encyclopaedia would be too cumbrous and costly for popular use. Within reasonable limits, however, it has been the compiler's aim to include the principal recreations and their representatives as being of general interest to every lover of out-door sports.

Accuracy has been earnestly striven for, but the difficulties attending the collection of such a mass of information are akin to those which perplex explorers in every untried field. Among so many thousands of names and addresses it is inevitable that errors must occur, both of omission and commission, although the various departments have in most instances been submitted to the examination of specialists in the world of sport.

The compiler wishes to express his high appreciation of the generous aid and co-operation given by brother sportsmen, and if all readers will promptly report any errors or omissions noticed in the work, these will be properly corrected in the next edition.

That the SPORTSMAN'S DIRECTORY may prove a valuable book of reference to the great fraternity of American sportsmen, and become more perfect, more complete, and therefore more indispensable as a guide from year to year, is the earnest desire of

"WILL WILDWOOD."

## INTRODUCTION.

---

In offering this work for the friendly consideration of American sportsmen, the writer is well aware that the book will be (as a captious critic said of Webster's Dictionary) "rather dry reading in some parts," but this may be condoned by the reader provided the volume is found instructive, if not entertaining.

Suggestions and corrections will be most thankfully received, from any and every source, for the improvement of the next edition of the SPORTSMAN'S DIRECTORY. Through the cordial co-operation of all who are interested—and "their name is legion"—the compiler hopes to produce a revised work much more thorough and accurate than the present volume could possibly be. Club secretaries, especially, are requested to furnish information coming within the scope of the directory, and any data which will render the book more perfect will be highly appreciated.

All communications should be addressed to the editor and compiler, Fred. E. Pond, 192 Mason st., Milwaukee, Wis.

# Spratt's Patent Dog Cakes

WITH BEET-ROOT.

## TO OWNERS OF DOGS.

Read the Opinion of America's Foremost Authority on Dogs, as to the value of Spratt's Patent Dog Cakes.

*January 31st, 1891.*

SPRATT'S PATENT, LIMITED,

239-245 E. 56th Street, New York City.

*Gentlemen:*—It is with great pleasure that I testify to the value of your **Dog Food**. I have used **many tons** of it in my **ken- nels**, and have yet to meet with a single instance where it proved unsuitable, or was followed by any ill effect whatever. It is my custom to commence feeding puppies with it as early as the seventh week of life. The "Cakes" I reduce to a fine meal, with which I thicken their milk. This meal is fed once a day at first, oftener after a short time; and when the puppies are old enough, the un- broken cakes become one of the most important articles of food. Since employing this method of feeding, **the fatality among my young stock has been much less than formerly**, and their growth has been more rapid and healthier.

Very truly yours,

**"ASHMONT."**

REASONS FOR USING

AUSTIN'S

DOG

BREAD

IN FEEDING YOUR DOGS.

**FIRST.**—It is the **BEST**, and contains all the nutritious ingredients adapted to the needs of the **DOG**, in such combination as to make it a healthy, natural food.

**SECOND.**—It is good for a dog's **TEETH**, for **SWEET BREATH**, for **GLOSSY COAT** and **REGULAR HABIT**.

**THIRD.**—It is better for the digestion, as it has to be chewed before swallowing; consequently it cannot be bolted, which is always injurious.

**FOURTH.**—It is always ready for use requiring no cooking, and will keep sweet and good for a long time if kept in a dry place.

**FIFTH.**—It is prepared and baked in as careful and cleanly a manner as our fine biscuits and there is nothing in it that is not good for any human being to eat.

# VICTOR BICYCLES

"When an intelligent man wants to purchase, he buys from parties whose standing in their several callings is a guarantee for the quality of their wares."

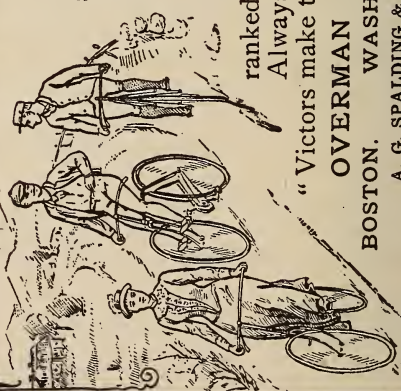

When the same man wishes to buy a bicycle he goes to those who have made cycle making a scientific study, and whose years of solid experience entitle him to expect THE BEST in every respect.

For ten years we have been building high grade cycles called "VICTORS." It goes without contradiction that they have always ranked with the very best—a leader of leaders. Always abreast with the times. Always in the lead. "Victors make the pace." An art catalog is worth getting.

# THE LAKE REGION OF NORTHERN WISCONSIN AND MICHIGAN.

THE ATTENTION of sportsmen, particularly anglers, is directed to the lake region of Northern Wisconsin and Michigan, reached by the MILWAUKEE, LAKE SHORE & WESTERN RAILWAY. No other section of country offers the lover of the rod and hook so great a variety of sport. The innumerable lakes are teeming with muskallonge, black bass, pike and pickerel, Mackinaw trout and land-locked salmon, and the streams with brook trout.

Below is given a brief mention of a few of the principal fishing resorts.

## BRIEF MENTION OF

## SOME OF THE PRINCIPAL RESORTS

On the Line of the Milwaukee, Lake Shore & Western R'y.

**GOGEBIC LAKE, MICH.** Is 15 miles long and  $1\frac{1}{2}$  to 3 miles wide, and is generally conceded to afford the finest black bass fishing known anywhere. Brook trout are found in tributary streams and at certain seasons of the year very large brook trout are caught in the open lake. Below is given a brief mention of a few of the principal fishing resorts.

The Gogebic Hotel and Cottages, accommodations for 100 guests. Fine fleet of boats, steam yacht, etc.

**WATERSMEET, MICH.** Fine brook trout fishing to be had in various streams, some of them very near the station. Hotel accommodations, guides, etc.

**LAKE VIEUX DESERT.** (State Line Station, Wis.) Headwaters of the Wisconsin River and splendid muskallonge fishing. A great number of these fish were caught in this lake during 1890, some of them being very large specimens. Boats and guides are to be had and L. Thomas can accommodate a limited number of persons at his house on west shore of the lake. This lake affords special attractions to camping parties, there being many fine camping spots.

**TWIN LAKES, WIS.** (Conover Railroad Station.) "Crosby's Resort." Fine muskallonge, bass and pike fishing. Good accommodations for sportsmen and families. Boats, guides, etc., and a number of lakes accessible. This resort will be run the coming season under the auspices of the "Twin Lakes Fishing and Hunting Club," who have purchased the property. It will be open the entire season not only to club members, but as heretofore for the entertainment of fishermen and their families, or those in search of health and recreation. It will remain under the immediate charge of Mr. Wm. Crosby. Rates for board, etc., will be practically the same as heretofore, namely, for board, \$2.00 per day or \$10.00 per week. It is the purpose of the club to provide, before the opening of the coming season, additional accommodations and such improvements for the general comfort of its patrons as may be deemed necessary. The following are the names of some Chicago gentlemen who are interested in the management of this club: John N. Hills, Opera House Block; Harvey L. Goodall, editor and proprietor Sun and Drover's Journal, Union Stock Yards; J. W. McCauley, Royal Insurance Building; C. L. Ryder, General Agent, Milwaukee, Lake Shore & Western Railway, 197 Clark Street; C. M. Hardy, Lawyer, 77 Clark Street.

**"EAGLE WATERS," WIS.** Comprises a chain of twenty-seven lakes, all easily reached by steamer or row-boat from Eagle River Railroad Station and all offer fine sport with muskallonge, bass and pike. Hotels, boats, guides and steamer at Eagle River Station.

**THREE LAKES, WIS.** A railroad station in proximity to the southern portion of the "Eagle Waters" chain of lakes. Hotels, boats, guides, etc.

**TOMAHAWK LAKE, WIS.** The Milwaukee, Lake Shore & Western Railway traverses the entire Tomahawk Lake region, passing directly along the shores of Tomahawk and Kawaquesaga Lakes. These and other lakes in this vicinity, are noted for their fine muskallonge and bass fishing. There are hotels, boats and guides at Tomahawk Lake, and the St. Germain Lakes, Lost, Found, Plum, Star and Laura Lakes are all easily accessible.

**TROUT LAKE, WIS.** Is especially noted for the great number and large size of the "land-locked salmon" that are taken from its waters. Muskallonge and bass are also caught in this lake, which is best reached by a good wagon road running from Woodruff Station. There is a hotel on the west shore of Trout Lake and boats and guides can be secured.

**MANITOWISH RIVER, WIS.** Connects quite a chain of lakes, including Manitowish, Rice, Alder and Trout Lakes, all of which contain bass and muskallonge, and some have been fished but very little. Boats and guides can be secured at Manitowish Station and it is expected that a hotel will be ready at that point for the reception of guests on the opening of the fishing season of 1891.

**TURTLE RIVER, WIS.** Also connects quite a system of lakes, including Rice, Echo, Spider, Turtle, Long and a number of others. These lakes have been fished but very little and some not at all, so far as is known. Fine fishing is reported from those that have been tried and camping parties would doubtless find great sport in making a trip through these waters.

### Full-Beaded Arapahoe Moccasin.

Indian Moccasins from the Far Wild West.

*Great Curiosities, useful as well as ornamental. Made from genuine Indian smoke-tanned buckskin, and beautifully beaded by the squaws, showing the artistic handiwork of the "wild, untutored savage." All who are interested in this much-abused and ill-treated race, should have one or more pairs of their wonderfully made shoes in their cabinet, or hanging on the wall of office or parlor, for soon no more can be obtained, as game and Indians are fast disappearing to the "happy hunting grounds" of the noble red men.* Warm, light, soft and handsome; comfortable for tired feet in house or camp; noiseless for hunting; and for the sick room, hospital, school-room or office, and never cause corns, nor blister the feet on long journeys. Wholesale terms liberal to agents, publishers, schools, shoe dealers and general merchants. Ladies' and Gents' sizes, \$2.00 per pair, post-paid. Try a sample pair. Send length of foot in inches. Postage stamps taken. Send money in registered letters.

G. G. MEAD, Ferris, Wyoming.

## BUSINESS DEPARTMENT.

### Guns and Rifles.

**THE PARKER BREECH-LOADING GUN.**—One of the earliest and best known American breech-loaders is the Parker Shot Gun, which has kept well at the front, notwithstanding the active competition of rival manufacturers. The workmanship, material and shooting qualities of the Parker can always be relied upon, as it is a point of honor with the manufacturers to turn out no inferior weapon. As an indication of the excellent shooting qualities of the Parker gun it may be mentioned that the grand prize, consisting of two thousand francs and a valuable cup, was won by the Parker Hammerless at the annual tournament of 1889, held at Cannes, France. The first Parker hammerless gun made won the championship of America, at Decatur, Ill. Instances without number might be given to prove its excellence, but the above will suffice. A handsomely illustrated catalogue can be obtained by addressing the Parker Brothers, Meriden, Conn. (See advertisement, page 74.)

**THE LEFEVER SHOT GUN.**—During the past ten years the Lefever breech loading gun has become justly popular among field sportsmen and trap shooters. In addition to the high grades manufactured by the Lefever Arms Co., a medium priced hammerless gun, called the Ideal, has lately been placed on the market. It has Damascus barrels, and is in every respect a reliable, close shooting gun. The price of the Lefever guns range from \$80 to \$400. Catalogue will be sent upon request by the Lefever Arms Co., Syracuse, N. Y. (See advertisement, page III.)

**THE NEW BAKER GUN.**—It is claimed for the new Baker Gun that it embodies a very high class of workmanship in fittings and finish, without ornamentation, and that its shooting powers are all that can be desired from the cylinder bore for upland shooting, to close choke bore for hard continuous work, at the trap and wild fowl shooting. The New Baker Gun is manufactured by the Baker Gun and Forging Co., Batavia, N. Y. (See advertisement, page IV.)

**STEVENS RIFLES AND PISTOLS.**—The J. Stevens Arms & Tool Co., of Chicopee Falls, Mass., manufacture the celebrated Stevens rifles and pistols, known throughout the world for their wonderful accuracy. This company originated rifles for the 22-long rifle cartridge and the 25 new fire Stevens' Special Cartridge. These cartridges have been pronounced by experts as the most accurate of all small-bore cartridges, and the Stevens rifles, pistols and pocket rifles shooting this ammunition make feats of marksmanship formerly declared impossible, within the reach of all. The wonderful rifles and pistols produced by this company find their way to nearly every country in the world. One can find among the Stevens products rifles or pistols in all calibers, of various weights, from the lightest to the heaviest, with short or long barrels, for case, holster or pocket. An elaborate catalogue of fire arms is published by the company, as well as circulars of information describing the latest triumphs in small-bore rifles and pistols, which will be sent free to any part of the world upon application. (See Adv., page III.)

**WINCHESTER REPEATING ARMS CO.**—The well earned popularity of the Winchester Repeating Rifles among riflemen and lovers of large game shooting, created a demand for a repeating shot gun which would prove as effective in field shooting as the rifles had done in their special line. The new Winchester Repeating Shot Gun seems to fill every requirement. Its simplicity, strength, accuracy and rapidity of firing commends it at once to practical sportsmen, and since its first introduction the demand has exceeded the supply. The excellent shooting qualities of the Winchester Repeating Rifles and Shot Guns are enhanced by the carefully made cartridges and shells, bearing the Winchester brand. Every detail of the manufacture of these arms, as well as of the shells and cartridges, is attended to by experts and practical men, which accounts for the perfection attained. A neat illustrated eighty page catalogue, descriptive of the Winchester Repeating Arms and Ammunition, will be sent to any address upon application to the Winchester Repeating Arms Co., New Haven, Conn. (See advertisement, page II.)

**SMITH & WESSON REVOLVERS.**—Like all articles of superior merit the celebrated Smith & Wesson revolvers are imitated by unscrupulous manufacturers with intent to deceive, but the genuine arms made by the firm bear their full name and address, with date of patents which should be carefully examined by the purchaser. The merits of this revolver are acknowledged everywhere, and their reputation has been earned by successfully passing through the severe and critical tests made by the experts at the factory and by practical shots at targets, etc. A finely illustrated catalogue can be procured from the manufacturers, Smith & Wesson, Springfield, Mass. (See Adv., page I.)

## Gun Powder.

**AMERICAN WOOD POWDER**—The improved American Wood Powder is nearly smokeless, and therefore particularly effective in trap shooting or in field shooting under certain conditions. The merits of American Wood Powder are fully set forth in descriptive circulars, which will be mailed upon request to any address, by the American Wood Powder Co., 59 Wall st., New York City. (See Advertisement, page IX.)

**AUSTIN POWDER CO.**—The well-known brands of Gun Powder, Austin Rifle, Austin Crack Shot, Club Sporting and Eagle Ducking, are deservedly popular among field sportsmen in all sections of the country. For trap shooting, duck shooting, etc., the Austin Powder may be relied upon to give excellent results. Descriptive circular may be had by addressing the manufacturers at 34 South Water st., Cleveland, Ohio. (See Advertisement, page X.)

**DUPONT'S GUN POWDER**—The well-known firm of E. I. Dupont de Nemours & Co., are successors to the well-known firm established in 1802, since which time the fame of Dupont Powder has become world-wide. Among the popular brands made, are the Crystal Grain, Eagle Ducking, Choke Bore and Rifle. Dupont's Powder is for sale by all dealers in sporting goods. Prices and discounts will be sent upon application to Dupont de Nemours & Co., 32 Pine st., New York City. (See Advertisement, page X.)

**HAZARD GUN POWDER**—In the prominent rifle matches for the past twelve years, Hazard's Powder has been generally and successfully used, and in trap shooting the gun powder manufactured by this company has been relied upon by the crack shots. Their Kentucky Rifle, Trap Powder, Duck Shooting and Electric, are brands familiar to sportsmen as household words. The Hazard Powder is for sale by sporting goods dealers throughout the United States. Diagram cards and descriptive circulars may be had by addressing the Hazard Powder Co., at 63 Pine st., N. Y. City. (See Advertisement, page VIII.)

**ORANGE SPORTING POWDER**—Trap and field shots, as well as rifle-men and dealers in gun powder, will be interested in testing the new Orange Sporting Powder, patented April 17, 1884, and brand Orange Rifle Extra. Wherever tested this powder has given the best of satisfaction, as it is quick and strong and burns with perfect combustion. Dealers will do well to address the manufacturers, Lafin & Rand Powder Co., 29 Murray st., New York, for prices, etc. (See advertisement, page VII.)

**WING SHOT POWDER**—Under the name of Wing Shot Powder, the Oriental Powder Mills, of Boston, Mass., manufacture a line of gun powder which has become very popular among field sportsmen. It is strong, clean and effective. For descriptive pamphlet, address the manufacturers. (See advertisement, page IX.)

## Cartridges.

**CHAMBERLAIN CARTRIDGE CO.**—Machine loaded ammunition of the highest grade is the specialty of the Chamberlain Cartridge Co. Their trap cartridges are of almost universal use and for field shooting, their sale by sporting goods dealers, generally, or may be obtained direct from the Chamberlain Cartridge Co., Cleveland, O. (See advertisement, page XI.)

**PETERS' CARTRIDGE CO.**—The improved design in loaded cartridges invented by the Peters' Cartridge Co., of Cincinnati, Ohio, appears to meet the want of a very large class of sportsmen. The shells are loaded in a practical manner, the greatest of care being taken to ensure uniformity and effectiveness. For descriptive pamphlet address the Peters' Cartridge Co., at Cincinnati, Ohio. (See advertisement, page 175).

**UNION METALLIC CARTRIDGE CO.**—The magic initials, U. M. C., are familiar to all lovers of shooting, whether with the shot gun or rifle. The Cartridges made by the Union Metallic Cartridge Co. have given some of the best scores made at the rifle ranges, and their shot gun shells are equally successful in field and trap shooting. The factory made ammunition of this firm is for sale by all dealers. A descriptive pamphlet referring to the merits and achievements of the U. M. C., can be obtained by addressing the Union Metallic Cartridge Co., Bridgeport, Conn. (See advertisement, page 70).

**UNITED STATES CARTRIDGE CO.**—The Climax shot shells, pistol and rifle cartridges and primers, are extensively used by trap shots, riflemen, etc. Their standard uniformity and cleanliness is very generally conceded. A neat descriptive pamphlet will be set free to any address, by the United States Cartridge Co., Lowell, Mass. (See advertisement, page 121).

## Gun Cleaners.

**CLARK'S CORK GUN WIPER**—A most desirable portion of the sportsman's kit is a serviceable cleaner. Clark's Cork Gun Wiper has many advantages. Address the manufacturer, J. C. Clark, Topeka, Kan. (See advertisement, page XII.)

**THE FERRIS GUN CLEANER.**—One of the merits of this newly invented gun cleaner is that it fits any gauge, and removes rust and dirt effectually. It is for sale by gun dealers generally, and by the manufacturer, Will H. Ferris, Franklinville, N. Y. (See advertisement, page XII.)

**THE PERFECT POCKET OILER.**—Sportsmen, anglers, bicycle riders, etc., desire a convenient oiler for their guns, and bicycles. The Perfect Pocket Oiler is all that the name implies. It is for sale everywhere. Address Cushman & Denison, 172 9th ave., New York City. (See advertisement, page XII.)

## Sportsmen's Specialties.

**SPORTSMEN'S APPLIANCES.**—Few men have ever devoted so much study to the welfare of Sportsmen, as T. W. Rudolph, the inventor and manufacturer of the popular Rudolph Sportsmen's Specialties. His origin in the Gun and Fishing Tackle business dates back to 1862—twenty-nine years ago. Taking an interest in his adopted business has made him today one of the best known men in the Sporting Goods business, as well as the shooting and angling fraternity. His goods are sold all over the world. You will find a portion of his goods illustrated on pages VI and XVI.

**GOLD MEDAL CAMP FURNITURE.**—Over thirty thousand of the combination camp-bed, table and chairs manufactured by R. B. Lang, of Racine, Wisconsin, were sold last year, demonstrating the fact that sportsmen and tourists appreciate a good thing. The points of superiority of the Gold Medal Camp Furniture consist of strength, lightness and portability,—three essential things in traveling in the wilderness or elsewhere for recreation. Send to the manufacturer, R. B. Lang, Racine, Wisconsin, for descriptive circulars. (See advertisement, page XV.)

The Blue Rock Pigeon has become popular in all portions of the United States, among trap shooters. The claims made for it are that it is the best, most economical, most widely used target on the market. For descriptive circulars address, The Cleveland Target Co., Cleveland, O. (See advertisement, page XI.)

(See advertisement, page XIII.)

**HANNAFORD VENTILATED BOOTS.**—The inventors of the improved ventilated boot for anglers, field sportsmen and lovers of out-door recreation, may be considered benefactors. The disagreeable feature of rubber boots hitherto, has been sweating and discomfort of the feet, but this is entirely obviated by the Hannaford Ventilated Boot. A postal card addressed to the Hannaford Ventilated Boot Co., 79 Milk st., Boston, Mass., will bring full particulars. (See advertisement, page XIII.)

**THURMAN'S SHOOTING BLOUSE.**—This convenient blouse is made of fine worsted Jersey cloth, fits close, gives to every motion of the body, nothing in the way to catch the butt of the gun when bringing it into position. Everything works smooth. It has two pockets for shells. In fact, many who have used them claim that they can make much better scores when wearing them. Mr. Rollo Heikes, wearing one for the first time at the Keystone Tournament at Corry, Penn., made his famous records of 183 and 170 straight. Mr. W. Scott McDonald, wearing one at the Herron Hill G. C. Tournament, Pittsburg, Penn., made a record of 184 straight. No

trapshooter's outfit is complete without one. Those that have used them would not be without them for many times their cost. For descriptive catalogue address Rainbow Knitting Mills, Germantown, Philadelphia, Pa. (See advertisement, page XIII.)

## Bicycles.

**THE WESTERN WHEEL WORKS**—For quantity and quality combined the record of the Western Wheel Works, of Chicago, for the past few years, has been remarkable. A conservative and reliable journal, the *Sporting Goods Gazette*, of Syracuse, N. Y., says of this firm that it easily ranks with the largest makers in the country, and then comments on the output of the concern as follows: "In 1884, the Western Wheel Works opened a New York store under the management of R. L. Coleman, who had been in their employ for several years. In that year the business amounted to \$40,000. In 1886 the business increased so rapidly that they decided to form an Eastern agency, then it was that the firm of R. L. Coleman & Co., consisting of R. L. and T. C. Coleman, was formed. From 1886 the business of the company grew steadily and rapidly, aggregating in 1890 nearly \$300,000. The company are under contract to take one half of the output of the Western Wheel Works and it is stated that they make the company a weekly remittance of \$5,000. The firm have two floors or lofts, 185 feet deep, extending from Barclay street to Park Place. Their lofts are stored with wheels from floor to ceiling, and at the present time nearly \$100,000 worth of stock is carried. The firm have gathered this forest of wheels because they intend to fill all orders this season as soon as booked. In the Barclay street end of the first floor are situated the offices of the company. For this year the firm have a line of seven wheels, of which we have heard nothing but favorable comment from members of the trade who have seen them. Two radical departures are to be made this year. In the first place, the grade of the wheels has been raised all around. Drop forging will replace the cheaper material used in past seasons. The company will also make it a point to sell only at uniform price to all customers, and each customer is required to sign a contract not to cut the price." Dealers and others interested in cycling will do well to address the Western Wheel Works, Chicago, Ill., and obtain their latest catalogue. (See advertisement, page 131).

**VICTOR BICYCLES.**—It is seldom the case that those who start a good thing (or rather make an article so thoroughly that the pace is set for other makers) are destined to reap their due reward. Bicycle making proves an exception to the rule. Other makers were in the field before the Overman Wheel Co., but it remained for the latter to create a new standard in cycle construction. This company discarded malleable iron castings, solid rims and other crude and imperfect ideas connected with the manufacture of

cycles. They led all other American makers in this respect by adopting forged steel as a substitute. As a result their efforts have been fully appreciated, as is attested by their elegant new factory, one of the largest and finest in America. Chicopee Falls, Mass., has much to be proud of. Send to the Overman Wheel Co., Chicopee Falls, Mass., for illustrated catalogue. (See advt. page 130.)

**COLUMBIA BICYCLES.**—When Thomas Stevens went around the world on a Columbia bicycle, he rode the best wheel then in existence. Since then, however, constant improvements have been made by the makers—Pope Mfg. Co., and their 1891 “Light Roadster Safety” and “Ladies’ Safety” seem very near perfection. They are certainly models of beauty and fine workmanship, while their enduring qualities would undoubtedly surpass even Stevens’ famous machine. A handsome catalogue may be obtained by addressing the Pope Mfg. Co., 77 Franklin st., Boston. (See advertisement, page 132.)

### Sportsmen’s Publications.

**STANDARD WORKS FOR SPORTSMEN.**—In another portion of the “SPORTSMAN’S DIRECTORY” will be found descriptions of a number of standard sporting works, which should be in every sportsman’s library. Prominent among these books may be mentioned “Wild Fowl Shooting” and “Shooting on Upland, Marsh and Stream,” by W. B. Leffingwell, the celebrated sporting writer; “The Big Game of North America,” “American Game Fishes,” “Hunting in the Great West,” “Camping and Camp Outfits,” and “American Book of the Dog,” by G. O. Shields, better known to the fraternity under the nom de plume of “Coquina.” “Sporting Scenes and Sundry Sketches,” by J. Cypress, Jr., is a work which, like wine, improves with age, and “Poems of the Rod and Gun,” by Isaac McLellan, is a most excellent volume for leisure hours. Both of the last named are published by Henry Thorpe, 454 Sackett st., Brooklyn, N. Y. “Frank Foresters Fugitive Sporting Sketches” is one of the most interesting of this brilliant author’s works. It is published by the Sportsman’s Book Exchange, Westfield, Wis. “Modern Training, Handling and Kennel Management,” by Mr. B. Waters, the standard authority on kennel matters, is a book of rare value to every lover of the dog. “Wildwood’s Magazine,” in two volumes, gives a variety of information, both practical and interesting for the devotees of outdoor recreation, such as could not be purchased for ten times the price in any other form. The set of two volumes can be obtained by remitting two dollars to the Sportsman’s Book Exchange, Westfield, Wis. For full description of the books, etc., above mentioned, see pages XXVI. to XXXI.

**SPORTING JOURNALS.**—The rapid development of the American taste for out-door sports is indicated by the remarkable interest in the number of publications devoted to the various branches of legitimate sport. In the Publishers’ Department will be found a list of the principal sportsmen’s journals. Among the journals of this class may be mentioned the “Amateur Sportsman,” of New York City, devoted to the interests of amateurs with dog, gun and rod; “Sports Afield,” of Denver, Colorado, which well represents the best interests of a large class of sportsmen in the region of the Rocky Mountains; the “Texas Field,” which speaks for the sportsmen of the Lone Star State; the “Weeks Sport,” of New York City, a standard weekly journal devoted to angling, athletic sports, shooting, etc.; and last, but not least, the “Sporting Goods Gazette,” of Syracuse, New York, a model monthly, well sustained by manufacturers of and dealers in sportsmen’s goods.

## Dog Breeders.

**ACME KENNELS.**—Western sportsmen and dog fanciers may well take pride in the Acme Kennels, owned by Mr. Gustav G. Pabst, of Milwaukee, Wis. Mr. Pabst is an enthusiastic and practical breeder, and has devoted much time and study to improving his kennel of pointers, pugs, etc. (See Adv., page XXXIX.)

**MOOREFIELD KENNEL.**—Down in the old Dominion, at Chula, Va., is located the Moorefield Breeding and Training Kennel, owned by A. H. Moore, of Philadelphia. The kennel contains some of the best bred Setters and St. Bernards. (See Adv., page XXXVI.)

**CLAREMONT KENNELS.**—Mr. Frank H. Perry, proprietor of the Claremont Kennels, Des Moines, Iowa, is one of the leading breeders of Irish Setters in America. He has purchased and bred numerous prize winners at the prominent dog shows, during the past two years. Mr. Perry understands the art of breeding, and, being an enthusiastic sportsman, appreciates the true type of Irish Setters for field work. Among the famous dogs in his kennels are Claremont Patsy, and Nino by Campion Elcho-Noreen. (See advertisement, page XXXII.)

**ORIOLE KENNELS.**—It is within the past five years that Fox Terriers have come into prominence in America, but during this time the breed has been wonderfully developed and improved by judicious breeding and importation from England. One of the most enthusiastic and practical Fox Terrier breeders is J. A. Logan, Jr., proprietor of the Oriole Kennels, Youngstown, Ohio. His dogs are unsurpassed for quality, as he breeds more for the improvement of his favorite strain than for profit. (See advertisement, page XXXII.)

## Dog Food.

**AUSTIN'S DOG BREAD.**—Five reasons are given for using Austin's Dog Bread. "First, it contains all the nutritious ingredients adapted to the needs of the dog, in such combination as to make it a healthy, natural food. Second, it is good for dogs' teeth, for a glossy coat and regular habits. Third, it is excellent for the digestion, as it has to be chewed before swallowing, consequently it can not be bolted, which is always injurious. Fourth, it is always ready for use, requiring no cooking, and will keep sweet and good for a long time if kept in a dry place. Fifth, it is prepared and baked in a careful and cleanly manner, and there is nothing in it that is not good for any human being to eat." Send for descriptive pamphlet and testimonials to Austin & Graves, 116 Commercial St., Boston, Mass. (See advertisement, page 113.)

**SPRATT'S PATENT DOG CAKES.**—One of the best known American writers on dogs is "Ashmont," who thus certifies to the value of Spratt's Dog Cakes in a letter to the manufacturer. "GENTLEMEN: It is with great pleasure that I certify to the value of your dog food. I have used many tons of it in my kennels and have yet to meet with a single instance where it proved unsuitable, or was followed by any ill effects whatever. It is my

custom to feed puppies with it as early as the seventh week of life. The cakes are reduced to a fine meal, with which I thicken their milk. This meal is fed once a day at first, oftener after a short time; and when the puppies are old enough, the unbroken cakes become one of the most important articles of food. Since employing this method of feeding, the fatality among my young stock has been much less than formerly, and their growth has been more rapid and healthier." Sportsmen who have visited the south also write very flattering reports of the good effects attending the use of Spratt's Dog Cakes, during field trials and other work. Dog fanciers and others interested can obtain, free of charge, the pamphlet on dog diseases, etc., published by Spratt's Patent, 239 East 56th St., New York. (See advertisement page 112.)

Croley, of San Francisco, California. These remedies have been quite extensively tested and are recommended by many breeders. (See advertisement, page XXXVIII.)

# ORANGE SPORTING POWDER

---

MANUFACTURED  
- - - BY - - -

## Laflin & Rand Powder Co.

---

ORANGE RIFLE EXTRA,

ORANGE SPECIAL,

ORANGE DUCKING,

ORANGE LIGHTNING.

---

The attention of *trap and field shooters, riflemen and dealers in gunpowder* is called to the new ORANGE SPORTING POWDER, patented April 17th, 1888, and branded ORANGE RIFLE EXTRA.

This Powder is quick and strong, and burns with such perfect combustion that the only residuum left in the barrel after shooting is a dark oily substance easily removed. While this powder is not exactly *smokeless*, it gives only a light bluish smoke which is almost instantly dissipated, and interferes but little with the shooting of the second barrel, taking the place of the so-called smokeless powders in this respect.

This brand of Powder sells at the same price as any other brand of Rifle Powder and is superior to any made. No person who shoots can afford not to give it a trial, as after once trying he will never use any other Powder when he can obtain the ORANGE EXTRA. Weight and quality guaranteed.

# RUDOLPH'S FISHING SPECIALTIES.

RUDOLPH'S CELEBRATED FLOATING MINNOW BUCKETS.

(Patented July 15, 1884.)

THE ORIGINAL AND ONLY.

New Pattern.

**NOISELESS.** The handiest, lightest and most complete Minnow Bucket ever put on the market. Will not sink. Free circulation of air and water. Attracts the fish to it, thereby making good fishing around the bucket. No loss of bucket or bait should you drop it overboard. When you arrive at the lake, drop the inside bucket in the water, where it will remain on the surface, the waterproof wire making it so open that it affords full flow of fresh water all the time, bringing to your minnows the insect food upon which they exist, as well as attracting other fish to it.

Per Doz.....	\$17 60	20 80	23 15	25 24

Inside Buckets are made of strong Galvanized Wire Cloth.

## RUDOLPH'S PATENT FLOATING FISH DECOYS.

The Decoy is just the thing claimed to be. It is made of strong, waterproofed Galvanized Wire, with a float attached to Lid to prevent its sinking. Put a number of fresh minnows in the Decoy, then put it in a stream or lake of fresh water, keep quiet for a while, and if there is any fish within 50 feet of it on either side of the Decoy, they will see the minnows through the clear water and gather around it, when you want to drop your hook with a bait on it in their midst, and you are sure of a bite immediately. This is an absolute certainty. You must, of course, proceed quietly. We don't say it will attract fish where there are none. You will find it very convenient to put out several Decoys, at least two, so that while you are fishing around one it is quiet at the other. These Decoys can be sunk to any depth by placing weight inside of Decoy.

Price, each..... \$1 00

## Rudolph's Steel Nicked Fish Hook Extractor and Fish Stringer.

**RUDOLPH'S HOOK EXTRACTOR.** Per doz. \$2 30

To extract a hook out of the Fish's mouth or belly, you simply pass the line through the slot in the tube, then run the Extractor down the line until it will go no further, let the hook drop into the notch, then pry it out the way it went in. If the hook is held tight by a piece of flesh or muscle, a couple of turns of the Extractor will cut it loose. Lift hook and line gently out to avoid hooks catching again. You will find them very handy.

We make Hunting, Fishing and Pleasure Boats and Canoes, which are adapted to be folded into compact bundles for transportation.

When extended our boats are equal in appearance and strength to the best constructed wooden boats, and when folded they may be carried without cost as baggage, or shipped by freight distances not exceeding 1,000 miles for one or two dollars per boat. To ship an ordinary boat any distance costs more than the boat is worth, unless it is an exceedingly high-priced one.

We are the only makers of this class of boats who sell them through the trade; possibly because ours are the only folding boats in the market sufficiently well modeled and made to sell from samples. We think the demand for this class of boats is a growing one and we have spared no expense to make our goods the best of their class and the best possible to make. ## POPULAR SPORTING WORK.

# Frank Forester's Fugitive Sporting Sketches.

EDITED BY WILL WILDWOOD.

This work embraces the finest of FRANK FORESTER'S fugitive essays on shooting, fishing, the chase, etc., and a comprehensive memoir of the author by "Will Wildwood." The favor it has met with among sportsmen, the hearty commendation of the press, and the demand for the work, is sufficient guarantee of its practical value.

## TESTIMONIALS:

It appeals to the highest sentiments of the sportsman.—"Glean" (Hon. Thos. A. Logan.)

I could wish it were in the hands of every sportsman.—"Boone."

It has afforded me the most delightful interest.—Maj. Geo. B. Halsted.

The introduction to the "Sketches" is well conceived and happy, and the work is well calculated to inspire the young generation to seek a closer acquaintance with his other works.—Gen. H. H. Sibley.

I have read the work with much interest. "Frank Forester" has ever been my ideal of a sporting author.—T. Robinson Warren.

For abandon, and the easy power with which the author here lays on the colors, these sketches are equal to anything that ever came from his pen. No one can afford to let slip this chance to add to his library another volume by the same pen that wrote the "Field Sports." W. J. Faddis in AMERICAN FIELD.

## COMMENTS OF THE PRESS.

This dainty volume of choice selections is edited by Will Wildwood, whose contributions have from time to time, afforded rare entertainment to readers of the "Monthly."—BALDWIN'S MONTHLY.

The editor has rescued from oblivion several of the brightest sketches of the author, besides furnishing a well written memoir of a career illustrated by splendid literary success, but closing in the deepest tragedy. BOSTON SUNDAY BUDGET.

This attractive volume is dedicated by the editor to the admirers of "Frank Forester," and if every admirer of that talented pioneer in sporting literature secures, as he should, a copy of this delightful repository, the present edition must run far into thousands.—CHICAGO FIELD.

It is a neat volume, being a compilation of articles upon sport and sporting by the late "Frank Forester," (H. W. Herbert,) edited, with a memoir of Herbert, and numerous explanatory notes, by our friend Will Wildwood. The book is an interesting one, to sportsmen especially, and we have perused its pages with pleasure. STATE REGISTER. (Wis.)

These sporting sketches of the lamented Forester, now rescued from oblivion, bear the stamp of the brilliant pen that produced the American "Field Sports," and will be welcomed and valued by the great fraternity of sportsmen. They present a succession of attractive pictures of woodland scenery, and lead us forth again to the romantic domains of the natural world—to mountain and stream, to sea shore and forest and prairie—sylvan retreats so dear to the sportsman. \* \* \*

We trust that the volume will meet with the ready sale it so well merits. FOREST & STREAM.

"Fugitive Sporting Sketches" is the title of a new book made up of the fugitive essays of Frank Forester together with a delightful memoir of his life, accomplishments, and sad demise, by Will Wildwood. The agreeable duty of recalling to public attention these essays is not an unnecessary one, and the editor has placed the votaries of rod and gun under obligations to him. AFIELD AND AFLOAT.

## A GREAT OPERATION.

"To-day," said an eminent surgeon, "I have performed a great operation."  
"And the patient?" "He is dead."

Surgery is indeed a great science or art, and has made great progress within our own time. There is now scarcely an operation that cannot be successfully performed, upon the dead subject, and sometimes, with great benefit to the living.

But it is well to keep the body in a healthy condition, and thus avoid many of those diseases which require the surgeon's knife.

Compound Oxygen, being inhaled into the lungs and taken up by the blood, is distributed over the whole body, removing the causes of disease, and giving strength to resist its attacks. The Compound oxygen is rich in ozone, the life giving element of the air. It does not act by creating another disease, nor does it build up one portion of the body at the expense of the other.

If you wish to know more of this remedy and its wonderful results, send for our book of 200 pages, sent free. It is a history of Compound Oxygen, its nature, discovery and results, with numerous testimonials, and records of surprising cures in chronic cases. These testimonials are published with the express permission of the patients, whose names and addresses are given. You are almost certain to find a case, or numbers of them, like your own.

Naturally, our success has led to many imitations, and so-called Compound Oxygen is offered to the public in several places. Some of these imitators publish our own testimonials to recommend their spurious preparations. We shall content ourselves with cautioning the public against them. Any substance made elsewhere or by others, and called Compound Oxygen is spurious. Only manufactures of genuine Compound Oxygen.

# DERMADOR

*Is a Liquid for External Application.* - - -

A Valuable Chemical Combination Discovered by a Celebrated Chemist

Cures bites and stings of all insects immediately. If applied to skin before, insects will not bite at all. No mosquito bars necessary while you have this Dermador.

**EXTERNALLY APPLIED**, it affords almost instantaneous relief in cases of sprains, bruises, dislocated joints, burns, scalds, cuts, frost bites, chilblains and chapped hands. Cures pimples, fever sores, sore throat, bronchitis, inflammatory rheumatism, and inflammation of the eye and ear, swollen glands, cheeks bleeding, instantly. Its antiseptic qualities render it especially valuable to surgeons in bandaging suppurating wounds.

**AS A SHAVING WASH** it has no superior—healing all cuts, pimples, and a “too close shave” instantly. Will also cure chapped hands.

Also the best application for horses, cattle and other animals, in cases of galls, calks, sprains and flesh wounds of all kinds; and garget, sore teats and bags, mange, swellings, etc. In fact cures all inflammations that flesh of man or beast is heir to, from the delicate eye to the hard cuticle of the heel. It will drive the fleas from your dogs, and cure them of mange. It should always be at hand wherever you are. It has been known for over forty years.

## A FEW TESTIMONIALS.

WM. BASSETT, M. D., of Morris, N. Y., said—“I tried it with the happiest effects, and must in justice to you, as well as the public, say, as an external application for local inflammations, bruises, cuts, burns, etc., it far surpasses any other remedy offered to the public.”

J. C. WYCOFF, M. D., So. Otselic, N. Y., said—“For bruises, lacerated wounds, sore eyes and acute local inflammations, I know of nothing which is equal to the Dermador. It is an article which no family should be without one day. By taking pains to supply every one with it, you will confer a lasting favor on the human family.”

Col. A. M. SMITH (Senator from 18th District), N. Y., said—“I have used it on *Horses and Oxen* for galls on the neck from the collar or oxbows, and in *all cases* found it useful and effectual.”

J. L. HACKSTAFF, Editor of the *Prattsville Advocate*, said—“I can with pleasure recommend it to the afflicted public, as one of the most safe and effectual Liniments I know of, and unsurpassed for all kinds of inflammations, but more especially inflammatory rheumatism and bronchitis.”

## 1. STYLE FOR FAMILY AND PHYSICIANS.

Owing to demand by physicians for something they could prescribe, that was without so much of the veterinary specifications, we have got up a very handsome wrapper of orange color, without the cut of horse, and is very suitable for the house, the surgery or dispensary. Two sizes, 25 and 50 cents.

## 2. AN EXTRA LARGE STABLE SIZE.

For the use of stable, livery men and stock owners generally, who have demanded larger quantities, we have got up a large size holding twice as much as the 50 cent size, and in a pyramid-shaped bottle which will not easily upset; in cream colored wrappers with the cut of horse. Three sizes, at 25, 50 and 75 cents. Quality is same in all styles.

All druggists usually have it on hand, if not, we will send free of carriage for the price. For further information, address,
